

Wireless LAN (WLAN) in the branch libraries

You can use the publicly accessible Wireless LAN of the Stuttgart Public Library with your own devices

Connecting to the Network

Scan for the wireless network **STBWLAN**

Connect your device to the network using the required password:
Bibliothek

After successful connection to the network start your web-browser and open an arbitrary website. You will be redirected to our login-page. To access the login-page you have to accept its SSL-certificate.

Ignore all warnings about this certificate..

On the login-page you have to accept the terms of usage, then put in your **library-card-number** as **username** and your **date of birth** as **Password**.
